Montana Medicaid Notice
School-Based Services Providers

Billing for CSCT Services

The Department has researched the issue of billing for Comprehensive School & Community Treatment (CSCT) services when a child has another insurance as well as Medicaid. It has been determined that procedure H0036 is a Medicaid only code, and other insurances do not recognize it as a valid procedure code.

Therefore, effective immediately, providers of CSCT services shall bill the appropriate CPT-4 code(s) to other payers, as those payers require. When billing Medicaid for CSCT services, providers shall continue billing with the H0036 procedure with the appropriate charges and units of service. Providers must enter the amount paid by the other insurance on the claim to Medicaid. Do not bill CSCT services under any other code than H0036 to Medicaid.

Contact Information
